

SARAH HAMMAD

Product Designer and UI and UX Designer | Research Driven | Figma | Interaction Design

sarahhammad776@gmail.com | Cairo, Egypt | Open to Remote and Relocation
linkedin.com/in/sarah-hammad-b96a1a1a3 (full case studies and research documentation)

PROFESSIONAL SUMMARY

UX and Product Designer with hands on experience across the full design process: research, information architecture, wireframing, high fidelity prototyping, and usability testing, for mobile and web products in consumer AI, fintech, and marketplace domains. Delivered an Arabic language, WCAG 2.1 AA compliant RTL interface for the Egyptian market alongside English language products for global audiences. Currently a UX Design Intern at FlyRank AI, an AI startup, since June 2026. Seeking international remote, hybrid, or on site Product and UX Designer roles where cross cultural research and systems thinking add value.

CORE SKILLS

Design Tools: Figma (Auto Layout, Components, Variables, Dev Mode), FigJam, Maze

UX Process: User Research, Usability Testing, Information Architecture, Journey Mapping, Persona Development, Competitive Analysis, Card Sorting

Design Skills: Interaction Design, Wireframing, Low and High Fidelity Prototyping, Design Systems, Design Tokens, Accessibility (WCAG 2.1 AA), RTL and Localization Design, Material Design 3, iOS HIG

Collaboration: Agile and Scrum, Cross Functional Teamwork, Stakeholder Communication, Design Handoff

Languages: Arabic (Native), English (Professional, C1)

AI Fluency: Claude for research, prototyping support, and workflow automation, applying the 4D Framework (Delegation, Description, Discernment, Diligence) for responsible AI collaboration

EXPERIENCE

UX Design Intern, FlyRank AI

June 2026 to Present | Remote

- Designed AI powered interface features with product and engineering teams, applying UX research insights to improve discoverability and task completion.
- Ran usability testing on prototypes each sprint, identifying friction points and shipping design improvements in a fast paced startup environment.
- Standardized UI components within the team's design system to improve consistency across product screens.

Freelance UI and UX Designer, Independent

June 2025 to Present | Remote

AI Powered Fashion Styling App (Mobile, iOS and Android)

- Led end to end UX design of an AI fashion advisor app, from competitive benchmarking (6+ apps analyzed) to a final interactive Figma prototype.
- Designed a personalized, AI driven outfit rating system aimed at reducing decision fatigue and supporting faster styling decisions.
- Built an onboarding flow using progressive disclosure and contextual tooltips to keep first time setup simple.

Finance Management App with AI Insights (Mobile)

- Designed a smart budgeting tool with AI driven spending predictions and visual dashboards to reduce cognitive load through clear information hierarchy.
- Conducted 5 user interviews to validate information architecture decisions, restructuring navigation based on findings.
- Built and documented a scalable design system of 40+ components following Material Design 3 guidelines.

Childcare Appointment Booking Platform, NestCare (Egyptian Market, Web and Mobile)

- Defined personas and journey maps for 3 distinct user types (service providers, end users, administrators) to ground decisions in real user goals.
- Designed an Arabic language RTL interface compliant with WCAG 2.1 AA, broadening the platform's addressable audience.
- Delivered a complete Figma prototype with annotated component specs and design tokens for development handoff.

Bicycle Rental Platform, Hybrid Ownership Model (Web)

- Simplified a five step rental to ownership flow into five screens through task analysis and card sorting.
- Conducted a heuristic self audit ahead of user testing, identifying 12 usability issues to resolve.

Market Intelligence and Communication Lead, ZOOMO

January 2021 to March 2023 | New Damietta, Egypt

- Owned cross functional communication workflows across 4 departments, building documentation systems that reduced information gaps and improved team velocity.
- Analyzed recruitment and operations data to identify process inefficiencies and recommend improvements to hiring cycle time.
- Mentored and supervised a team of 6 junior members, designing onboarding materials and performance evaluation frameworks.

Transferable UX relevance: data analysis, systems thinking, structured research methods, stakeholder communication.

Operations Manager, AUTHENTIC

February 2021 to January 2022, concurrent with ZOOMO | Damietta, Egypt

- Conducted competitive market research and translated findings into business strategy recommendations.
- Designed internal performance reporting structures, applying data visualization and information design thinking.

EDUCATION

B.Sc. Business Administration, Cairo University

January 2020 to 2024 | Cairo, Egypt

Relevant coursework: Organizational Behavior, Market Research, Strategic Management, Data Analysis.

Diploma, Biomedical Technology, Medical Devices Institute

2017 to 2020 | Egypt

CERTIFICATIONS AND TRAINING

- Google UX Design Professional Certificate, 8 courses, Google and Coursera, completed July 21, 2026.
- Anthropic Academy, AI Fluency Certificate Series, 9 courses: Framework and Foundations, Claude 101, AI Capabilities and Limitations, Introduction to Claude Cowork, AI Fluency for Builders, AI Fluency for Educators, AI Fluency for Students, AI Fluency for Nonprofits, and AI Fluency for Small Businesses.
- Accessibility Fundamentals (WCAG), self directed, applied across freelance projects.
